## DAILY TRADE TALK

### Trade Improvement; Can a Good Thing Be Too Good? Paying Our Taxes; Vital Statistics

BY CHAPIN HALL.

General business in Los Angeles is showing a distinct improvement month over comparative periods, and it now seems likely that the trade records for the month will be broken. Pessimistic suggestions occasionally encountered to the effect that such favorable conditions as have obtained in Southern California throughout the first half of the year are too good to continue are giving way to the irrefutable argument offered by the "biggers in the case." Record after record is going by the board; bank clearings and building permits are heavier than ever before; population increase is without interruption, and the investment market is strong. In manufacturing lines activity has increased and forward plans show that the upward movement is no flash in the pan, but that future commitments are based upon careful analysis of the situation. There is a trade quickening under way quite apparent in the time of the year, and the outlook as seen in financial, mercantile and manufacturing circles continues to hold out great promise.

**BUSINESS TOO GOOD?**  
Can business be too good? The average business man thinks so, yet Currency Controller Crisinger holds for the affirmative, especially in its relation to price increase. This policy, in the opinion of the Controller, is not the procedure by which to bring about a quick and permanent restoration of good times. The strike of buyers, he says, does not represent a merely passing state of community mind. You can generally count on your public to buy at least as freely as it can afford to buy; and you can pretty safely assume that when a whole year's public persists in waiting for its old clothes, it is taking that attitude, not because it wants to hurt somebody's feelings, but because it has the money with which to buy the things it wants. The money chief goes on to say that in an era like the present, the way to restore good times and good business is to cut out the wastes of production and distribution; to get profits down to a basis of the utmost moderation, consistent with safety, and to invite the public into the market. Mr. Crisinger is undoubtedly correct in his deductions, and it is a fact now becoming recognized that there must be more harmonious action between all forces harnessed to do with commodity production and distribution if a stabilized market is to be arrived at.

In Los Angeles this tendency is marked and the psychology of the situation recognized. The gap is closing, and it is probable that there is less producing and more equitable basis of establishing profit and loss accounts in effect at the present time than at any period since the war.

At the same time, it is easy to agree with the Controller that the "present is a good time to sound a warning against any general effort to put up with prices at a level which would be a development of many years' experience, should be of prospective value.

**PICKING SALESMEN**  
Where do good salesmen come from? The Carnegie Institute of Technology has been conducting a series of experiments to find an answer by classifying salesmen according to the occupations in which they were drawn, and then by fixing each one's rank on the basis of his performance and length of service. These two factors are essential because the producer is the one who every sales manager wants, but his value is nullified if he stays only a short time and must soon be replaced.

The men accepted by a successful sales organization were picked from the following sources: Laborers, stockholders, farmers, postoffice employees, chemists, bank employees, general insurance, real estate, merchants, teachers, business men and salesmen.

Not one in the first six groups showed a record of more than \$100 a year. Real estate agents, merchants and teachers were far more successful. Eight of fifteen who had been in business earned more than \$1000 a year, and remained with the same company eight years or longer. Sixteen who previously had been salesmen in another line earned more than \$1000 a year and remained ten years or longer. One former business man and two salesmen had passed the \$1000-a-year mark, with twenty years' service.

It was found that in picking a man who already has been a salesmen the chances were only one in sixteen that he would earn less than \$2000 and quit the first year. On the other hand, in picking one who had been a clerk the chances were three in ten that he would earn less than \$2000 a year and quit in two that he would leave during the first year.

**VITAL STATISTICS**  
There are more vital statistics concealed in a cafeteria than are visible in the long counters of prepared food. Critics of the healthful nature of cafeteria managers disagree, and say that the closest economy must be exercised.

One way of reducing waste is to find out how much food of different kinds is required on different days. This has been accomplished in one well managed eatery by keeping an elaborate set of "vital statistics."

These records give the number of portions of each food sold on a particular day, the prevailing weather conditions, and the average amount of checks. Whenever a holiday occurs or any condition which might attract people to the neighborhood or deflect them into another neighborhood the circumstance is noted, and it is found that the comparisons with corresponding days the week month or year before are valuable in preventing the preparation of more food than is eaten.

**NEW DISCOUNT RATE**  
Announcement of the reduction of the discount rate of the Federal reserve banks in New York and Boston occasioned no surprise here, where a similar cut for the twelfth district bank is expected daily.

The reduction in the eastern district was the first of the present year and the sixth successive downward reduction for the last year. Up to May 5, 1921, there was some difference of opinion as to what would be the effect of the reduction on the Wall street money market. The reserve bank's cut of its rate from 5 percent to 4 1/2 percent last November was followed by reduction in the street rate for commercial paper from 4 1/2 to 5 percent which prevailed up to the end of the year. When the bank rate came

# BUSINESS NEWS

Bradstreet's Weekly Review today will say: "Improvement, slow and careful in some areas, relatively fair in others, is still the story most commonly used in describing the progress of distributive trade, of industry and of crops. There is more doing in June, however, than there was in May, in which month things gained over April, and the advance over June a year ago is, of course, unmistakable. Indeed, except for short periods in the autumn of last year and of 1920 reports as to trade, industry and collections are about the best in two years. The week's price movement has been upward and the food index has advanced. Failures are slightly more numerous.

"Best trade reports come from the West, with the mail-order houses making excellent comparisons. Crops have held their own well, despite some complaints of dry weather.

"Weekly bank clearings, \$7,381,672,000."

**IN THE BOND MARKET**  
The next week will probably see a slowing down in the output of new bond issues, according to the opinion of many local investment bankers. Offerings during this period will probably be limited to small State and municipal issues. They base this prediction on the fact that the market, particularly in the East, has developed another case of moderate indigestion, owing to the rapid rate at which new offerings have been made and the fact that larger blocks than usual of recently-sold issues have flowed back to the financial district for resale.

Some recent issues, especially the large new foreign offerings, are clogging dealers' shelves, and their activities at present are directed toward moving them. The very best class of bonds, however, continues to move readily.

The investing public is beginning to discriminate sharply in its purchases of new issues, both as to security and as to price. Several offerings of prime bonds have been made recently on a yield basis that was not quite in line with market conditions, and these have not gone well. A high yield has also failed to attract purchasers when the security was doubtful. In contrast, there have been a number of offerings where the yield was given to going yields, that have met with unusual success and sound placement.

**PAYING OUR TAXES**  
Financial reviewers in the East are making excuses for slow collections and a "free bit slump" in some lines of business by attributing the condition to the June 15th tax day. While it is true that many concerns and individuals take advantage of the privilege of paying income tax in quarterly installments, it is not true, at least in Southern California, that obligations are deferred thereby or that business is materially affected. A discussion of this phase with Los Angeles credit men elicits the information that no appreciable difference in collections or general commitments was noticeable during the period immediately preceding or following the June quarterly payment.

**BIG ARIZONA MERGER**  
Out of the purchase of the Gila Valley Bank and Trust Company of Globe by the Valley Bank of Phoenix, which means the largest financial institution in Arizona and one of the strongest in the entire Southwest. The merged institution will have total resources of about \$10,000,000, a capital and surplus of \$1,000,000 and will provide profits of more than \$75,000.

As a part of the merger program, the Valley Bank has agreed to transfer to the new institution its capital stock of \$500,000, to \$100,000. R. E. Moore, formerly general manager of the Gila Valley Bank and Trust Company, has been elected president of the enlarged institution. C. E. Miller, former president of the Valley Bank, has been made chairman of the board.

With the merger, the Valley Bank takes over the management of ten banking institutions in Arizona. Eight were annexed through the purchase of the Gila Valley Bank, while the two others were operated by the old Valley Bank, including the Phoenix branch at Phoenix and a branch at Ajo.

**FAIL BUYING**  
The "hand-to-mouth" basis is still the order of the day in the jobbing markets of the country, according to all reports received from the large eastern centers. While there has been some expansion in the volume of merchandise that manufacturers and wholesalers, the former are still merchandising on a "hand-to-mouth" basis, and only to their immediate requirements.

It is said that efforts to book fall orders in many lines have been eminently successful to date. Retailers are somewhat sceptical of the recent price advances in primary staples and other commodities and seem more inclined than ever to wait until the last minute to place their orders for fall goods.

**CITIES SERVICE REPORT**  
The May report of the Cities Service Company, a gain of \$64,427 over April. During the twelve months, ended May 31, preliminary earnings were \$1,000,000 and \$11,700 was earned on the common stock.

**DEFINITIVE BONDS**  
Definitive bonds of the Marland Oil Company, 7 1/2 percent sinking fund issue, due 1921, are now ready for delivery after the Guaranty Trust Company, according to information received yesterday from Merrill, Lynch & Co.

**FEDERAL RESERVE**  
Federal Reserve Bank report for the twelfth district as of June 21, shows total reserves of \$251,325,000, which compares with \$250,000,000 for the corresponding week, and \$207,199,000 for the corresponding week a year ago. Total reserves declined slightly from \$252,000,000 to \$251,325,000. A year ago they were \$410,225,000. Deposits are about the same as last week, \$141,524,000, against \$142,581,000. For the corresponding week in 1921 they were \$120,745,000. Federal reserve notes in actual circulation totaled \$217,524,000 against \$217,310,000, the week before and \$227,310,000 last year. District reserves remain unchanged at 4 1/4 percent on all classes of paper.

**ERROR CORRECTED**  
In a three-column advertisement published in the Times of June 13, offering Republic of Chile bonds, and signed Kelley, Drayton & Co., it was said, due to an error in transmission, that redemption of the bonds was to be effected by means of a cumulative sinking fund of "10 percent per annum." This should have read "1 percent."

**JOYCE HEADS BANKS**  
Announcement has been made of the election of William H. Joyce, former president of the Federal Land Bank at Berkeley, to the presidency of the Association of the Pacific Coast Joint Stock Land banks, the chain recently organized by banks of Los Angeles, San Francisco, Portland and Salt Lake City. The combined capital of the banks will be \$17,000,000 and one bank will be

# Garden Grove Union High School District

(Orange County, Cal.)

INCOME EXEMPT FROM FEDERAL INCOME TAXES.

**FINANCIAL STATEMENT**

Actual Valuation (est.)	\$8,500,000
Assessed Valuation 1921	2,884,000
Total Bonded Debt (this issue only)	125,000
Ratio of bonded debt to assessed valuation	4.33%
Population (estimated)	2,000

Garden Grove Union High School District has an area of approximately 12,800 acres and is located in the northwestern part of Orange County, about 30 miles from Los Angeles and about 8 miles west of Anaheim. This is one of the most highly developed agricultural sections in Southern California. The principal products are Valencia oranges, other citrus fruits and walnuts.

**COTTON MART CLOSES  
AT LOWEST POINT**

[REUTERS DISPATCH.]  
NEW YORK, June 28.—There was further pressure from the local market and continued

[illegible]

The Federal merchants showed a little strengthening on good markets. London being back to the mark, and the dollar market steady. While goods-breads are still of 5 to 10 per cent advance.

The goods market is heavily changed but not in the same direction.

The Commercial Bulletin will publish new prices as follows:

## JUNE 24 1922 - PART I

This image shows a vertical strip of material with a dark, heavily textured surface. It appears to be a piece of aged paper or a book binding, characterized by numerous vertical lines, creases, and areas of discoloration. The texture is rough and uneven, with varying shades of dark gray and black. There are some lighter, vertical streaks running through the darker material, suggesting wear or the underlying structure. The overall appearance is that of an old, weathered object.

WEDAY MORNING.

# YOUNG'S MARKET COMPANY

## FACTS WORTH KNOWING STEER BEEF

**WHEN YOU BUY** beef at Young's you get STEER BEEF. —Young's Circle X Brand is the supreme quality in Southern California. Young's do not carry COW BEEF, because it is not as tender, has more bone and waste, the flavor is not so good and there is one-third less food value and SHOULD BE SOLD FOR THAT MUCH LESS.

**YOU GET** ABSOLUTE ASSURANCE OF QUALITY AND AN EQUAL ASSURANCE OF FAIR PRICES IN EACH PURCHASE OF MEATS AT YOUNG'S.

## LEAGUE FILES NEW ARTICLES

*Action Follows Warning of Commission*

*Photoplaywrights' Business Methods Scored*

*New Incorporation Expected to End Trouble*

Faced with an order to suspend business, according to a statement made yesterday in San Francisco by State Corporation Commissioner Daugherty, the Photoplaywrights' League of America with headquarters in Los Angeles earlier in the day filed new articles of incorporation with a view of removing their business from the jurisdiction of the commission.

Mr. Daugherty declared that the concern which sells "memberships" at \$12 a year in a scenario writers' school and selling agency, has been dealing in a form of securities which it disposes of without sanction of law.

"If this outfit attempts to sell further so-called memberships under the name of the league, I will go before the District Attorney of Los Angeles and demand that it be prosecuted for fraud," Edwin P. Hyland, executive secretary and one of the four members of the board of directors of the league, stated yesterday that the matter had been taken up with two of Mr. Daugherty's deputies and he believed they were satisfactorily adjusted. Articles of incorporation involving a different method of procedure in sale of memberships were filed yesterday at the suggestion of the commission deputies, he said.

"We were organized in October of 1920," Mr. Hyland said, "and to date we have had approximately 3000 members of whom probably 1800 are now active. Twelve stories have been sold through the efforts of the league. For the \$12 memberships we read and criticize three plays and those available for sale we attempt to place with studios here."

"Wycliffe A. Hill, the president now in Houston, Texas, where his mother is very ill. Our attorney, J. Morgan Marmaduke, has gone over the entire situation with the commission and we had satisfactorily adjusted the case."

"We conduct no school for writers, but merely recruit our membership from professionals, semi-professionals and amateurs, endeavoring to sell those of their stories for which there seems to be a market."

Mr. Daugherty declared the bookkeeping of the league is in such a state that he can gain no adequate idea of the extent of its membership, but that he knew the "memberships" were being sent in from all parts of the country. He said his action against the league followed an exhaustive investigation of the scenario schools of Los Angeles.

Mr. Marmaduke, Mr. Hyland and Mr. Hill, together with Louise M. Hyland, comprise the board of directors. A notice to the effect that further sales of memberships under the former plan must stop was recently received by the league. Mr. Hyland said, but it came after what appeared to be a satisfactory solution of the case after conference with the deputies in Mr. Daugherty's office. Other articles of incorporation were prepared after due legal process and their filing was expected by the league to remove it from the commission's jurisdiction.

## Woman Held to Answer in Murder Case

In spite of a plea of temporary insanity, Mrs. Helen McClung, accused of the murder of a baby, was held to answer yesterday by Justice Forbes. After a plea for admission to bail by R. S. Hays, defense counsel, the court ordered that the defendant be released when she provides \$30,000 bonds.

James F. Jeffries, a minister, testified that before the slaying, Mrs. McClung went to him and was hysterical, asserting that Mrs. Hays was putting a black powder in a mail box and that the defendant had a peculiar feeling when approaching the box.

## Efficient Housekeeping

By Laura A. Kirkman

**THE HOUSEKEEPER WHO ENTERTAINS SIMPLY**

Every time I see a housekeeper whose mouth- corners are turned down and whose forehead is wrinkled and whose tone is listless, I always want to say to her: "You think you are too busy and overworked to enjoy yourself, no doubt; but what you really need is to do a little entertaining!"

Only about half the world has the habit of entertaining. The other half says to itself, "It's lovely to invite your friends in, now and then—but refreshments cost money. Or, 'I'd like to give an occasional party—but I'm so tired when I get through my work, that I couldn't enjoy it.'"

Such people don't realize that there is such a thing as very simple entertaining; and that one doesn't feel so tired when one's life holds a little enjoyment.

The woman who asks a few friends in to play bridge (if she doesn't play bridge she can invite them in to play "commerce," a card game which anybody can learn in a few moments and which is great fun) and who offers them simply sweet sandwiches and a cup of coffee, is not going to any great expense and yet is entertaining in a way that will brighten both her own life and that of her friends.

Good sweet sandwiches to offer (a sweet sandwich taken the place of cake) are: Chocolate sandwiches, orange sandwiches, banana and honey sandwiches, jelly sandwiches, and marmalade sandwiches. It will be glad to give the recipes for these as well as the directions for the card game mentioned above—commerce—to any

## SURPRISE FOR CONTESTANTS

(Continued from First Page)

as it is, above the surrounding districts, there is revealed a wonderful prospect of distant mountains and undulating plain. The value of the building site alone will have doubled within a year's time, and all the Wilshire Boulevard develops into what it will one day become—the most splendid highway in the world—the "El Dorado" of the future. The site will have many thousands of dollars added to its value.

The West Hollywood tract, where the \$2000 bungalow will be erected, offers many advantages all its own. It is in close proximity to one of the new high schools—the new Hollywood High, and is delightfully situated at the foot of good Hollywood hills. All public utilities will be available by the time the \$2000 bungalow is completed, so that no street need be torn up that some house in the course of building may make connection with gas, light or water. The soil at West Hollywood is of unusual fertility, a fine black loam, that promises a wonderful future for lawns and shrubbery.

The twenty automobiles to be given away were selected with taste and care. They are the latest word in quiet elegance and comfort. Outdoor life is conducive to good health, and one of these speedy, nimble motor cars at one's command, leisure time can be spent in a most pleasant and profitable manner. California, with its miles and miles of excellent boulevards, seems to make the possession of a motor car a necessity in order to fully enjoy life.

With such a wonderful array of cars to compete for, as The Times has provided, it is no wonder that the enthusiasm provoked has spread into practically every home in the large territory this newspaper blankets.

That out-of-town candidates are keenly alive to the unusual opportunities they have of winning, not only one of these two beautiful homes, but one of the many automobiles is shown by the many nominations being received from outside districts. The house, and the bungalow, and eight of the automobiles—the highest priced cars—will be awarded to the highest candidate in the entire territory, so that city and outside candidates alike are on an even basis when it comes to sharing in the best prizes.

After these prizes have been awarded, four automobiles MUST go in each of the three divisions. And diamond rings, talking machines and gold watches go to each of the eighteen districts into which the divisions are subdivided. Every candidate has a chance to win one of the houses, and twelve chances to win an automobile.

The Times campaign is a race in which a little hustle and effort in the pastime of getting subscriptions to The Times will pay tremendous dividends. In this connection, a man asked yesterday if he could secure subscriptions for a week or two and turn over the votes he had accumulated to some other candidate. "Absolutely not," he was told by the Campaign Manager. "Votes positively cannot be transferred in this campaign once they are issued. There is to be no favoritism shown whatever in the awarding of prizes. We will receive a fair and square deal throughout. Absolute fairness to everyone will be our first aim."

The man reached into his vest pocket and brought forth his nomination blank. "I just wanted to be sure on that point," he explained. "Watch me go after that election—that's exactly what I want."

The great number of valuable prizes offered by The Times may create in the minds of some people a wonder as to "how they can do it." It is quite true that The Times has launched a campaign an enterprise far exceeding anything ever attempted in the West, and the response that has come from the thousands of subscribers, the sum total of which is expected to justify The Times in placing a prize of valuable prizes within the reach of those who strive for them.

One thing is certain, the two beautiful homes and the automobiles and the other prizes will be won by those candidates who secure the most votes during the campaign. Who they are, nobody knows. That's up to the candidates themselves.

It is in fact, that each candidate actively participating in The Times campaign may be assured of compensation, a commission of 10 per cent will be paid on all new subscriptions he or she turns in during the campaign, in the event a regular prize is not won. In order to qualify for this commission, a candidate must turn in the equivalent and two new daily and Sunday six months' subscriptions each week from date of entering, amounting to a total of not less than \$75. These cash commissions will be paid at the close of the campaign, only to non-prize-winning candidates who continue to work actively until the finish.

Now is the best time to enter the campaign. The easiest way to do it is to turn to the campaign advertisement on another page of this paper and clip the nomination blank. It entitles you to 2000 votes free as a starter. When the first subscription is secured it will count 10,000 extra votes in addition to regular votes which are allowed on each subscription.

There is no advantage in holding back subscriptions once they are secured. It is best to turn them in to the Campaign Office as fast as secured, so that the paper can be delivered promptly to the subscribers. The Campaign Department keeps an accurate record of all subscriptions received—a separate account for each candidate. Thus, in case of extra inducements that may be offered, all new subscriptions turned in will receive the benefit thereof.

If you want to pave your way to success and a home—or an automobile—give that nomination blank a clip with the shears—Now.

## CAVANAUGH WINS SUIT; HOLDS JOB

*Action to Oust Chief of Venice Police Thrown Out by Court*

Chief of Police Cavanaugh of Venice won yesterday when Judge Avery held that the action brought to oust him from office was "wholly insufficient," and dismissed the case.

The charges against Chief Cavanaugh were brought by Earl A. McDonald and prosecuted by Attorney Frank McDonald. They were supported by affidavits by Ed Unger, Louis Laine, and Lawrence Klein, all of Venice. Mr. McDonald, the attorney, stated in court that further action would be taken, while Chief Cavanaugh stated he would take the matter before the district attorney.

Testimony was not taken in the case, the day being occupied by argument by Charles W. Lyon, defense counsel, and Mr. McDonald on the demurrer to the accusation. The court held that there was insufficient facts to base a cause of action and dismissed the case as to all counts, but stated this would not prevent the filing of a similar action at another time.

The accusation charged that Chief Cavanaugh was negligent in his duties, that he failed to prosecute cases of bootlegging, gambling and immorality and that he mistreated prisoners and used unseemly language on the streets. It was further charged that he failed to prosecute George J. Cleveland on a charge of committing an offense against June Dunn, aged 16 years, formerly employed in the Venice dance hall. Mr. Cleveland is manager for the Abbot Kinney Company, owners of the dance hall.

# CHEF EXPLAINS SIMPLE MENUS

He Tells the Easiest Way to  
Preserve Figs

Delicious Recipe is Given for  
Crullers

Gives Best Way to Prepare  
Popovers

(Continued from Fifth Page)

With three chopped hard boiled  
eggs and cover the eggs with  
four tablespoons of grated Parme-  
san cheese. Bake twenty minutes  
in a moderate oven.

# VEAL HEARTS WITH CARROTS

H. L. O. city, would like to  
know how to cook veal hearts as  
served by the Spanish. Wash,  
trim and cut in small cubes six  
veal or lamb hearts, cut into dice  
eight small scraped carrots and  
place all in a saucepan with half  
a cup of butter. Cook slowly for  
thirty minutes. Season with salt,  
pepper and chopped parsley.

# POP-OVERS AND SHERBET

A. R. C. Pasadena, has trouble  
making her pop-overs pop and  
wants to know if it would be all  
right to add all ingredients at one  
time when making the orange  
sherbet.

To be successful in making  
pop-overs one should beat the  
mixture well with a rotary egg  
beater and then pour into very hot  
iron pipe pans. The pans must be  
hot or there will be no pop. If  
all ingredients are placed in the  
freezer at first in making the  
orange sherbet, the sherbet will  
be coarse and lumpy. When the  
freezer is opened to add any in-  
gredient always pour cold water  
over and around the top to wash  
away any salt.

# PEACH PUDDING

W. C. H. Pomona, would like a  
recipe for peach pudding like her  
mother made back home in Mass-  
achusetts. As I never tasted her  
mother's pudding will give a  
recipe that has been used by New  
England cooks for a number of  
years and hope that it will be  
what she wants. Beat well two  
eggs and then beat into them three  
tablespoons of sugar and two ta-  
blespoons of butter. Add a quar-  
ter of a teaspoon of salt and two  
teaspoons of grated nutmeg. Make  
to a smooth batter with one cup  
of milk and one and a half cups of  
flour sifted with three-quarters of  
a cup of corn meal, and three  
teaspoons of baking powder. Place  
a layer of the batter in a two-  
quart pudding dish, have the bat-  
ter about an inch thick. Cover the  
batter with a layer of sliced, fresh  
peaches, sprinkle the peaches with  
sugar and cover with another  
layer of batter; repeat this method  
until all the batter is used, having  
the top layer of batter. Cover the  
dish and steam for two hours. Be  
careful not to fill the dish too near  
the top. Serve with a custard  
sauce mixed with some mashed  
peaches or an orange custard  
sauce.

# NOODLE PUDDING

for noodle pudding. Beat the  
yolks of four eggs with one cup  
of powdered sugar until light, add  
four tablespoons of powdered al-  
monds and a pinch of salt. Mix  
this mixture with one quart cooked  
and drained noodles, add the stiffly  
beaten whites of the four eggs;  
pour into a buttered pudding mold  
and steam one and a half hours.  
Serve with a fruit sauce.

# WOMEN DISLIKE HIRAM JOHNSON

Moore and Richardson Are  
Given Praise

Republican Study Club  
Shows Preference

One Lone Member Stands Up  
for Senator

(Continued from Fifth Page)

Republican women are prepared  
to take a very active part in the  
campaign to elect a United States  
Senator from California and, as  
shown by a demonstration at the  
Republican Study Club yesterday,  
they are particularly opposed to  
the side of Charles C. Moore in  
opposition to Hiram Johnson.

The genuine hostility of the  
women to Johnson was manifested  
by the women of the study club  
following an address on "Current  
Politics" by Mrs. Frank Kelley,  
in which Mrs. Kelley warmly com-  
mended Mr. Moore for his support  
of President Harding and inferred  
that he will have a decisive victory  
at the primaries. Mrs. Kelley  
also intimated the candidacy of  
State Treasurer Richardson for  
Governor.

Mrs. Florence Collins Porter,  
president of the organization, of-  
fered the floor to any one who  
cared to speak for the other two  
Republican candidates.

# WANTED TO KNOW

Mrs. Belle Cooper, one of the  
leading Republican women of  
Southern California and a charter  
member of the Study Club, was  
asked to read a paper.

"I read this morning in a Demo-  
cratic paper an eulogy of Hiram  
Johnson," she said, "and I would  
like to ask what sort of a Repub-  
lican he is and I want to say I  
can't see why a club of Republi-  
can women should endorse him."

"We don't! We don't!" respond-  
ed members.

An informal discussion  
started that worked itself into a  
further repudiation of Johnson.

"I cast my first vote for him,"  
commented a member, "and an-  
other instantly responded:

"So did I—and it was my last,  
as well for him."

Mrs. Cooper resumed her uncom-  
plimentary comments of the State  
senator and his record.

"I've known him ever since he  
was called the Sacramento hood-  
lum," she said, "and I hope I'll  
never hear the last of him. Her  
sentiment seemed to be reflected  
by many present.

Here Mrs. Porter, determined  
to discover a champion for John-  
son and thereby sustain the club's  
practice of "hearing both sides,"  
again demanded: "Who's going to  
come to the defense of Mr. John-  
son?"

# NO CHEERS

Three cheers for Hiram John-  
son," called Mrs. Adele White.

The most optimistic Johnson  
supporter couldn't have detected  
a single cheer.

And as for Gov. Stephens, no  
one even suggested a cheer for  
him.

Mrs. Kelley's endorsement of Mr.  
Moore as a candidate for United  
States Senator was unequivocal  
and comprehensive.

"His patriotism is of the high-  
est order and above question,"  
she said. "He stands positively in  
support of the Republic and the  
Constitution and the enforcement of  
established law. He is the clearly  
defined, outspoken kind of Repub-  
lican who, who, who, who, who,  
stands squarely in support of  
the Harding administration in its  
strenuous efforts to restore the  
country to its normal, rational, and  
state of mind and morals, and its  
old-time sound and prosperous  
business condition. He has a large  
following of the best citizenry of  
California, and close observers are  
freely forecasting a decisive vic-  
tory for him at the primaries."

# TOLD 'EM WHY

Concerning Mr. Richardson as a  
gubernatorial candidate, she  
said: "The candidacy of Mr. Rich-  
ardson for Governor has suddenly

# STEAKS DIFFER AND SO DO MEN

Dispute Ends With One at  
Hospital and Other  
at Jail

The difference between a  
sirloin steak and a T-bone  
steak caused S. A. Cheras, 4271  
South Hoover, to be  
brought to the Receiving  
Hospital last night for medical  
treatment and W. W.  
McDowell, manager of a  
market at First street and  
Broadway, to be escorted to  
the City Jail.

Cheras asserted to the po-  
lice that he ordered a sir-  
loin and got a T-bone. He  
remonstrated. He argued.  
Then, Cheras asserted, Mc-  
Dowell ended the argument  
by hitting him over the head  
with a hammer.

The injured man had a  
scalp wound treated at the  
hospital. McDowell was  
brought to the station by De-  
tective, Lloyd and Roberts,  
but was later released.

# POINTS TO NUCES-ITY

The commission in approving  
the widening of Tenth street  
pointed out the necessity for creating  
the great cross-town thorough-  
fare. The report was signed by  
President A. G. Bartlett.

Of the practicability of the pro-  
ject, the petitioners say:  
"There are no large buildings  
to be destroyed and it is our  
belief that there will be little op-  
position to the carrying out of the  
project."

"Fully realizing the benefits to  
be derived to the entire city, we  
further request that the assen-  
sable district be as large as pos-  
sible."

Councilmen interviewed yester-  
day declared that they believed  
that Tenth street should be widened  
through the city was obvious, and  
they should be taken now to  
widen streets before the growth  
of the city and the increase in  
property values would make the  
cost prohibitive.

# PROMINENT MEN SIGN

Signatures to the property own-  
ers' petition include those of Wil-  
liam M. Garland, R. C. Gillis, C.  
C. Tatum, Harry Chandler, Wes-  
ley Clark, Marco H. Hellman, O.  
T. Johnson Corporation, W. Ross  
Robinson, W. W. Mize, Ben R.  
Meyer, W. I. Hollingsworth, Frank  
Ryan, Morgan Adams, Reese Llew-  
ellyn, D. A. Hamburger, William  
G. Karchhoff, Los Angeles Invest-  
ment Company, A. M. Chaffee, Met-  
tley H. Flint, J. A. Jevne, H. M.  
Barnham, A. Frank, M. A. New-  
mark & Co., Haas, Baruch & Co.,  
C. G. Young, E. A. Dickson and  
others.

Representatives of the petition-  
ing property owners stated yester-  
day that they would guarantee a  
fund of \$10,000 to compensate the  
city for preliminary expenses  
should it be found legally impos-  
sible to carry out the project at  
this time.

# FIVE ARE INDICTED

Suspects Accused Under Drug Act  
of Congress

The Federal grand jury yester-  
day devoted its entire attention  
to the return of indictments in-  
volving asserted violations of the  
Harrison narcotic law. Indict-  
ments were returned against L.  
Barcia, Francis Negretta, Joe  
Rrisano, Mike Cordova and Wil-  
liam Anderson.

A statement was made to the  
body by U. S. Atty. Burke in re-  
gard to the San Diego govern-  
ment sale fraud case, and the un-  
derstanding was reached that the  
matter would be turned over to the  
new Federal grand jury that is to  
be impeled on July 14.

# FOR CIGAR DEALER

Funeral services for Harry Hull,  
pioneer beach resident and cigar  
dealer, will be conducted at 3 p.m.  
today at Venice, with members of  
the Santa Monica Bay Elks' Lodge,  
No. 906, in charge. Through a  
mistake it was stated in an ac-  
count of his death that he had been a  
saloon-keeper.

# Diet and Health

By Lulu Hunt Peters, M.D.

Authors of "Diet and Health, with Keys to the Calories"

# ANSWERS TO CORRESPONDENTS

Mrs. T. E. McN. asks me to state  
through the column what foods  
have the least fat value in them.

We have at the office a list of  
foods in 100 C. portions (it really  
ready now!) If you will send a  
4-cent stamped, addressed en-  
velope to me, through the paper, I  
will gladly send it to you. In gen-  
eral, you can know that the more  
fat there is in a food, and the  
more concentrated it is, the higher  
it is in caloric and fattening value.  
For instance, one tablespoonful of  
oil is 100 C. (fat is 25 C. to the  
ounce.) Sugar, a concentrated  
food, is 120 C. to the ounce, or  
about 25 C. to a moderate size  
teaspoon.

"Dear Doctor:  
"Having been absent at the be-  
ginning of the club reducing work,  
I am now sending in my name  
hoping you will accept me as a  
member of your club. You asked  
for our most embarrassing mo-  
ment. Mine was when a young  
man asked me to take his seat on  
a car and I attempted to do so,  
and found I could not squeeze my-  
self in the space. The laugh that  
went around was most embarrass-  
ing! May I know whether my  
enrollment—Mrs. K. K."

"Dear Doctor:  
"I am tubercular. Will you  
please recommend a diet?"  
Miss P.

You should be under the care  
of a physician and he will direct  
for the tubercular diet. It is im-  
portant, and I shall give shortly  
some general directions from the  
authorities on that subject. Watch  
the column.

"My Dear Doctor:  
"Hurrah for you! Hurrah for  
the health-builder. First I am 14  
years old. Two weeks ago I  
weighed 154 pounds! Now I weigh  
144 1/2. By your way of figuring  
I should be 135. I know that my  
stomach has shrunk some because  
I haven't such an awful appetite.  
I try to keep to 1000 C. a day. I  
refuse all kinds of candy and cake  
at school.  
"What are you going to do when

you go on picnics or out for din-  
ner or to the city? I do these  
things at least three times a week.  
Then my birthday is coming also.  
I am sure with you about young  
girls dieting. I wish to say to you  
kids will grow out of it. I am  
afraid most of us grow into it!  
One of the girls I go with is about  
thirty pounds overweight and she  
won't use her will power enough  
to diet and yet she envies me be-  
cause I am so slim. Well, I'll sum-  
up my questions:  
"First, can I still try the liquid  
diet? Second, what kind of liq-  
uid diet is best? Third, what about  
picnics, etc.? Fourth, how can I help that  
girl? Thanking you for my fu-  
ture diet, because I am going to  
stick to it, I remain your devoted  
servant.—B. N."

"Dear Doctor:  
I just love to get let-  
ters from girls like you. And it  
makes me happy to know you are  
following my advice and getting  
out of the fat girl type. I know  
how you feel about it. Now as to  
your questions:  
Yes, you can still try the liquid  
diet at least once a week. If you  
find that you do not continue to  
lose unless you do so. Skim milk  
is about the best liquid for this,  
although any liq. not totalling  
100 C. a glass will do; or if it to-  
tals more than that, fewer glasses  
of them.  
As for your picnic, you will find  
that there are always some foods  
that you can take that are not high  
in caloric value. After eating as  
you used to eat on your picnics  
and find that you have gained  
what has taken you a week to lose,  
you dislike yourself so intensely  
that it is almost difficult to deny  
yourself the next time. Don't lose  
more than a pound and a half or  
two pounds a week, however, and  
be sure to have some milk in your  
menu every day.  
How can you help that girl? If  
you get her to promise to  
go on the low caloric liquid diet  
one day, I am sure you would get  
her started, and if you once get  
her started her stomach will not  
demand so much food—it will be  
shrunk—and her will power will  
be strengthened. Getting started  
in this reducing regime is the diffi-  
cult thing. She is fortunate in  
having a good friend in you.  
Do write me again. I want to  
have you for an example for some  
of our other F. F. F. friends.  
Much love and respect.

# URGE WIDENING TENTH STREET

Leading Property Owners  
Back Petition

Council to Conduct Hearing  
on Proposal

Would Create Main Cross-  
Town Artery

(Continued from Fifth Page)

Urged by leading property own-  
ers and endorsed by the City Plan-  
ning Commission, the proposal to  
widen Tenth street through the  
business center of the city is now  
formally before the City Council  
and will be considered by the  
Public Works Committee at its  
meeting Tuesday afternoon. The  
plans call for a 100-foot street  
from the west city boundary to  
near Alameda street, there to con-  
nect with East Ninth street and  
from that point the widened street  
will be extended to the easterly  
city limits. This will make Tenth  
street a great east and west thor-  
oughfare. The City Planning  
Commission has reported on the  
project to the City Council as fol-  
lows:

"We believe that the widening  
of this street is of such vital im-  
portance that your honorable body  
would be justified in ordering the  
City Attorney and the City En-  
gineer to proceed with the necessary  
work by condemnation without re-  
quiring the usual 51 per cent peti-  
tion of property owners."

"The commission in approving  
the widening of Tenth street  
pointed out the necessity for creating  
the great cross-town thorough-  
fare. The report was signed by  
President A. G. Bartlett.

Of the practicability of the pro-  
ject, the petitioners say:  
"There are no large buildings  
to be destroyed and it is our  
belief that there will be little op-  
position to the carrying out of the  
project."

"Fully realizing the benefits to  
be derived to the entire city, we  
further request that the assen-  
sable district be as large as pos-  
sible."

Councilmen interviewed yester-

## Annual Blanket Sale

At the Lowest Prices Since 1910

BLANKETS have not been so low-priced in years as they are now. Many of them offered in the sale are made of wool bought as low as 15c a lb. "in the grease"—wool which is selling today at 37c a lb. You can readily see the wisdom of buying at once for winter needs, from Coulter's complete stocks of white, colored and plaid blankets; all-cotton, wool-finish, part wool and all-wool. By all-wool is meant wool as pure as it is possible to buy.

### White, Colored and Plaid Blankets

Reg.	Sale	Reg.	Sale
\$2.75	\$2.10	\$3.25	\$2.45
\$3.50	\$2.95	\$4.50	\$3.75

# AMPICO BEARS OUT ITS CLAIM

Recreation of Manual Artistry Shown

KHJ Courts Listener-in Verdict

Air Transportation is Ace's Subject

The Times-KHJ on the air today, from 7:15 to 8 p.m. Concert for this evening has been arranged through the courtesy of Maestro William Tyroler, Jeanette Gilbert, soprano, accompanied by Maestro Tyroler, will sing "Valse Song," from "La Boheme," by Puccini; "The Name of Mother," "Wishes," "I'll Forgive and I'll Forget" and "California Is Calling Me," all by Stella Gilbert, Maestro William Tyroler, pianist, will play "Farewell," by Schubert; "Maynight," by Palmgreen, and "Minuet," by Mirovitch, Franklin Both, violinist, will play "Romance," by Wagner-Wilhelm, and "Dance of the Dervishes," by Auer-Bethoven.

Radioland and the Knabe-Ampico were put on their mettle last night by KHJ. The Times radiophone, in a musical program arranged through the courtesy of the Fitzgerald Music Company, listeners-in had their first opportunity to hear a vocalist sing from KHJ to an Ampico accompaniment.

The other innovation of the evening was the alternate playing of an Ampico record and that of the artist who originally made the record. No intimation was given as to whether the Ampico was being played, or whether the artist did it manually. Radioland is asked to inform the radio department of the Times as to the order of the playing and the result will be announced later.

Florence Myers Engle, who has been heard several times before over KHJ, sang two numbers to Knabe-Ampico accompaniment—"Bird Song," from "Pavane," by Leoncavallo, and "Dawn," by Cur-

ran—in both of which she gave listeners-in full measure of vocal richness and quality.

The remainder of the program was Olga Steeb vs. Ampico, or Ampico vs. Steeb. At any rate those who heard will have their chance to say which was first—Miss Steeb, or the re-creation of her playing—in three numbers: "Rigodon," by McDowell, "Caprice," by Paganini-Liszt, and "Etude in D Flat," by Liszt.

Perhaps a word should be said about the origin of the Ampico, the name of which is a word coined from the name of the company making it—American Piano Company. It was invented in 1904 by Charles Fuller Stoddard. This instrument re-enacts the playing of the pianist just as precisely as if the pianist were actually seated at the piano. This instrument will strike a note with any degree of intensity desired, give a perfect crescendo from the softest pianissimo to the loudest fortissimo. It took the inventor seven years to accomplish this feat.

Edward Y. Rickenbacker, World War ace, told his invisible audience about aviation and its importance as a means of transportation in the future. His remarks will be found in another column.

**Afternoon Program**  
Baritone and mezzo-soprano divided honors on the KHJ during yesterday afternoon's program.

Mary Wellesley Hawes, accompanied by Maude Howard, blazoned when she sang "My Dear Soul," by Sanderson; "Four Ducks on a Pond," by Noddin, and "The Moon Drops Low," by Charles Wakefield Cadman.

Harold C. McClain, baritone, former head of Occidental College Glee Club, brought memories of the Southland in his three numbers: "Clay Me Back to Old Virginia," by Carrie Jacobs Bond; "Old Black Joe," and "Swanee River," by Stephen Foster. He was accompanied by Florence Heacock.

**Donald Dawson Bound Over on Bigamy Charge**  
Donald Dawson yesterday was bound over by Justice Forbes on a charge of bigamy.

The witness against Dawson were his asserted first and second wives. Questioned by Dep. District Attorney, Nancy E. Hall-Dawson testified that she married the defendant in San Francisco on Sept. 14, 1921, and was with him until the time of his arrest on a charge of passing a fictitious check.

Dall in the case was fixed at \$2500 and Dawson was committed to the County Jail.

**SAYS WIFE QUIT**  
Cooked Breakfast, and Then Went Home to Her Mother

When she was a bride of eight days, Mrs. Grace Hunter arose early and cooked a dainty breakfast for her husband, William Henry Hunter, according to testimony given by the husband yesterday in his suit for divorce.

Mr. Hunter killed her as he left for work. In the evening he found she had gone, he said, and discovered a note she had left in which she told him she was going home. Judge Hann granted him a divorce.

8 to 9 p.m.—Hansburger's, KHJ.

More than 15,000 radio dealers and radio manufacturing concerns have sprung up in the United States since January 1.

One of the most important things to remember in erecting an antenna is not to stretch wires either under or over high-tension telephone lines, or across the street.

A great deal of local interference usually thought to come from amateur spark stations is believed to be due to NFX, the naval transmitting station at Inglewood. This station is particularly hard to tune out and often causes considerable interference on 340 meters. The NFX spark is of the 500-cycle type, and rather high in note. It is very different from the musical rotary spark usually employed by amateurs and can be readily distinguished from them.

KJC—Barker Brothers—will be on the air today between 11:30 and 12, when Georgia Johnson, soprano, will render several vocal numbers, and Master Bernard Berger, accompanied by his mother, Mrs. Barry Berger, will give musical readings.

Those who listened in between 9:15 and 10 p.m. Thursday and Friday nights on 510 meters may have been surprised to have heard KNX, the California Theater station, on the air. Two splendid programs were given at this time by special permission wherein music from the California Theater five-piece orchestra was sent out very successfully. Heretofore the transmission of orchestra music has not been due to advantage in Los Angeles, but apparently the new microphones used by KNX are adequate for this purpose. Reports state the orchestra went out almost perfectly. Even Wally Reid, who recently installed a receiving set at his home in Beverly, phoned in to express his appreciation. The microphones used were of special design and were placed in the center of the balcony in such a position as to be in the center of sounds coming from the stage which is fifty feet away. The microphones, four in number, and the resonating cabinet were of special make and constructed by the Dictograph Products Corporation, which has made a thorough study of radio-telephone transmitters.

Experiments conducted at Caletico by C. R. Lester, 128 South Broadway, Los Angeles, indicate that Old Man Statie has the upper hand in that region. For some times, says Mr. Lester, sparks three inches long could be drawn from the antenna part of the station a stream of sparks would jump across the condenser plates, while attempting to listen in. Reception of radio-telephone concerts was extremely difficult. Using two stages of radio-frequency amplification, one detector tube and two stages of audio-frequency amplification, signals could be heard, but not by any means understood.

**LONG CONTINUANCE**  
Criminal Syndicalism Case Goes Over Until Next Year

Fifteen defendants, accused of criminal syndicalism, failed yesterday in Judge Shenk's court to have the case thrown out of court by a demurrer. The demurrer was overruled and the defendants pleaded not guilty. The case was continued until Jan. 4, 1923.

## AIR KNIGHT TALKS OVER KING OF AIR

American Ace Tells What Aviation Means to Future Transportation

A "knight of the air" gripped the hand of the "air king," radio, figuratively speaking, last night, when "Eddie" Rickenbacker, American World War ace, spoke to radioland from KHJ. By the newest form of communication the future of transportation was carried into thousands of homes times night after night, covering the whole history of transportation. Mr. Rickenbacker declared:

"Now comes a new transportation, which will revise civilization in far greater proportion than any previous transportation invented.

The airplane is today a thoroughly practical vehicle over 400 per cent advanced from the war-type airplanes. Another few years will see it again and many times more efficient than it is today. Its safety has been proved by our aerial mail, to be beyond that of any previous transportation, once it is thoroughly organized and controlled. Its reliability has been established beyond that of the railroad in accomplishment of mail delivery under all weather conditions. Its cost has been cut to a point where we can now deliver a ton of freight from Los Angeles to San Francisco in four hours on sixty gallons of gasoline.

"As the automobile increased our social radius from ten to thirty miles and thus revolutionized our cities and methods of living, how much more, then, will the airplane affect our lives, which will at once increase our social and industrial radius from 20 to 150 miles."

"One can build a five-passenger airplane in equal quantities for as little or less than it costs to build an automobile of the same class. It is as easy to fly a plane as it is to drive a car, once one has gone through the preliminary instruction of a few flight hours. There is less mechanism to take care of in an airplane than in a car and the upkeep cost per mile, while the gasoline consumption per mile soon will be less than in the average motor car of today."

"Already the new-type airplanes have flown from Chicago to New York with five people nonstop; from Omaha to Philadelphia, nonstop; many times from New York to San Francisco without mishap, and under what would be considered in commercial operation, very risky conditions."

**USING LESS HORSEPOWER**  
"We are carrying today, with 200 horsepower, more than 1000 could carry with 500 horsepower during the war and in far greater safety. Our own Congress and the industry in the passing of Senate have awakened to the complete control of aircraft travel, similar to the control of ships on our seas and lakes under the Department of Commerce. Our aerial mail has been put on sound footing, due to its extremely efficient showing, over 1,500,000 miles without a death."

"Over 100 airplanes are operating, practically through the United States, in commercial passenger carrying. The ship being used are of the old inefficient type, but the pilots and those interested are holding on at a profit stage, waiting until the new planes on which they can make money are produced."

"This coming year will see the first great establishment of aviation and with each succeeding year a tremendous jump in passenger and demand in proportion to the accomplishment which is put into this new industry."

"No one thing can put our own nation further in the lead of other countries, both in a military and commercial sense, than a speedy development of aircraft production. That nation which in the future dominates the air will dominate commerce, and that nation will dominate the air which first gets into quantity production of aircraft."

"It is my sincere wish and desire that citizens of Los Angeles realize the importance of the future of aviation and its commercial possibilities by supporting the development of this industry, which in time will even surpass the automobile as a means of transportation for all."

**ASKS SUPPORT**  
"Support and encourage our genius of which Los Angeles can proudly boast of in having one of the leading aeronautical engineers in D. W. Douglas, who has just perfected a biplane, the condensation of which is a plane for both Europe and America and the most successful development to date."

"Let us realize that it is not the generation which develops a great science of industry that comes to the fore, but the generation that follows, the boy and girl of today, who awake men and women of tomorrow and will, through their support of aviation, reduce the size of the United States to the size of Texas in hours of travel."

"With a closing thought, let us have confidence first in Los Angeles, then, in the future. Confidence that the past has made it possible for us to live in the present. Confidence that the present will repeat in the future what confidence has made possible in the past."

"Not until we have confidence in tomorrow, confidence with a smile before our eyes, confidence between corporations, confidence in our President, confidence in our government and confidence between nations will we have peace, meaning prosperity, health and happiness for all."

# "Millions Now Living Will Never Die"

More Than Forty Years Ago

Bible Students began to proclaim that 1914 was the year specifically marked when the "time of trouble such as never was since there was a nation," prophesied in the Scriptures, would commence. Until the catastrophe of August, 1914, broke upon the world they were ridiculed. In the brief span of seven years the human race has been torn by war, famine, disease and social upheavals the like of which has never been known. The prophetic words of Jesus, uttered nearly two thousand years ago, are being fulfilled with terrible accuracy. Will His words concerning events to happen within the next few years come true? You should know the truth.

In this thrilling and reassuring lecture Mr. Boyd will bring positive proof, by linking Bible prophecies with present day events, that the Kingdom of Messiah will soon completely supplant the existing rulership of earth and, because of this fact, there are millions of people who will actually never go into the grave. The lecture is not a dry discussion of theology, nor an attempt to convert you to some new, fanatical religion, but it is a glorious proclamation of "this Gospel of the Kingdom" which Jesus said must be preached in all the world for a witness before the end comes.

You are invited to hear

Dinuba ex-Serviceman Receives \$5000 from the State  
(SPECIAL DISPATCH)  
DINUBA, June 23.—Lloyd Olney, a member of Alpha Post No. 19, American Legion, in the first ex-serviceman in California to receive a certificate for a \$5000 loan for a home. The certificate was delivered by Robert Smith of Sacramento, secretary of the Veterans Welfare Board.  
Only eighty-five certificates will be issued at this time, it being necessary for others eligible for the loan to wait until the bond issue is passed in the fall.

**PRISONER IS TRAPPED BY JUDGE**  
Probation Plea on Forgery Charge Denied When He Admits Marriage  
Falling to hide from Judge Shook the fact that he had left a trail of from thirty to fifty checks across the United States, Charles C. Champ, fell into his own trap yesterday and was sentenced to San Quentin prison for from one to fourteen years. The young man's life was a peculiar tangle of events. He had pleaded guilty to passing a check without sufficient funds for \$194.10 on the Wright Motor Car Company when he bought an automobile. Investigation by the Pinkerton Detective Agency disclosed numerous other checks, one of which was passed upon the local Young Men's Christian Association.  
Champ had applied for probation and was questioned regarding being married. He denied that he had a wife, but when the court asked him which daughter, Margaret or Mabel, was oldest, he replied, "Margaret."  
The report of the probation officer stated that Champ was married, had two children, left his wife and children and five or six weeks before his first wife died, married a second time. The report stated that he had enlisted in the Army as a single and that his wife had trouble in collecting money for her expenses. It was indicated by the report that he was wanted in several cities.  
After Champ made an ineffectual effort to clear himself, he was sentenced.

**SPECIAL ELECTION FAVORED**  
Council Backs Movement to Legalize Act Lending Money to Veterans  
The calling of a special election early in August to vote on the proposed bond issue of \$12,300,000 for a new outfit, sewer, additional sewers, was favored by a majority of the City Council at an informal conference held yesterday. Councilman Mallard, chairman of the Council's Health and Sanitation Committee, called yesterday's conference and laid before the meeting the situation which he said had been created by the plan of the County Board of Supervisors, to place the bond issue at the State-county primaries on August 29, a bond issue, said to be for \$9,000,000 for the new Hall of Justice and other county improvements.  
It had been planned to submit the city sewer bonds at the August 29 election, but Councilman Mallard said that if the county bond issue appeared on the same ballot with the sewer bonds, the probability of carrying the sewer bonds would be greatly lessened, and for his reason he advocated the city's calling at once a special election to vote solely on the sewer bonds.  
A committee from the San Pedro Chamber of Commerce appeared before the City Council yesterday and urged that in the sewer plans to be financed by the \$12,300,000 bond issue, additional sewers for the Los Angeles Harbor district be included.

**Court Names Receiver for Trucks, Auto**  
Judge Crall yesterday appointed Linton Tedford as receiver for two trucks and an automobile bought. It is said, by R. I. Bennett, from money he induced Miss Natalie Avery to invest in the trucking business.  
Mr. Bennett has been held to answer by the Justice Court on the charge of embezzlement.  
Mr. Bennett is asserted to have met Miss Avery soon after she graduated from the Manual Arts High School and induced her to invest a legacy in the truck business. She put \$3700 in the venture, she declared. It was the contention of the prosecution that not all of this amount was invested in trucks.

**Residence of Dominguez is Burglarized**  
Jewelry and miscellaneous articles valued at \$2000 were taken from the residence of Attorney Frank Dominguez at 558 South Hohart Boulevard, early yesterday morning by burglars while Mr. Dominguez was away at a nearby beach resort. Mr. Dominguez reported the theft to the Wilshire police upon his return.

## Frocks May Be Inexpensive But Very Pretty

READY to wear—ready to enter on a footing of pleasant companionship—ready to make the Saturday shopper glad that she can shop so thriftily.

The Frocks at \$16.75 and \$29.50 draw on as a magnet.

They are in the loose, supple styles that call for little ornamentation—do not, in fact, admit of it.

At \$16.75, there are printed silks with the loose elastic at the waist-line to give as much or little blousing as one wishes. A blue silk with small white dots has a collar and cuffs of white crepe. The square neck-line is slashed several inches to form a panel across the front of the bodice.

The other model sketched is of black silk crepe in basque style. \$29.50. Vestee and cuffs are of white net. A second model at this price is of Rohanara crepe with plain tailored pockets, bound with grosgrain above and below the waistline.

Women and young women will find many models at these two prices from which to choose—on Saturday.

THIRD FLOOR

## Shantung Suits Turn Back Heat Waves

AND when they do that, they not only give happiness to the wearer, but they give pleasure to those who are looking at her.

But they are accomplishing only part of their mission when they act as a cool and restful breeze. They must have smartness as well—that very definite kind of smartness which is associated with Robinson's tailors.

There are three models which are specially noteworthy:

The one sketched, with pleated pockets on the coat and larger pockets on the skirt. \$35.

A second Shantung Suit with a lined coat and slashed pockets. \$25.00.

And a third, with a satin-lined coat. Trimmed with cable stitching in ecru. \$39.50.

All the coats of the Suits have narrow string belts and are of Shantung, which is durable and finely woven. The tailoring is of a very high order.

THIRD FLOOR

## Women's Outing Apparel

FOR outings, women are wearing clothes that are the acme of comfort and yet look well. Robinson's have a large stock of these things for misses and women.

Knicker of khaki have two slashed pockets, and buttons or adjustable patent clasps at the knee. They are priced at \$2.95

Khaki Semi-Middy Coats have saddle-back pockets through which the belt is passed, sailor collar and sleeves with button cuffs. \$3.45

Balkan Middies of Khaki have three buttons on either side, fastening the belt below the hips. \$1.95

Knicker of wool herringbone are in gray, brown or tan. These have belts with mannish buckle. \$6.75

THIRD FLOOR

## Pleated Silk Skirts at \$15.00

CERTAINLY in no previous season has the separate Skirt been actually so necessary to the summer outfit. The slip-on sweater is on the schedule of what-shall-I-wear at least two or three times a week, and the good-looking Skirt must supplement it.

Skirts of English crepe have alternate box pleats an inch and an inch and a half wide. The belt, the hem, the finish of the whole garment sets them apart as Skirts for particular women. Colors are beige, gray, navy and black. There is a good range of sizes and are priced at \$15.00.

THIRD FLOOR

## Many Styles of Bathing Suits to Fit Everybody

Bathing Suits for men, for women, for girls, for boys—may be had at Robinson's. There are sizes to fit every one from the tiny tot to the extra stout girl.

Suits for Girls, of all ages up to 16 years, with V necks, no sleeves, may be had in a wide range of colors, for \$3.95 each.

Children's Beach Suits of dark blue, khaki, or striped fabrics may be had for \$1.25 to \$1.95 each.

Suits for Boys, from 1½ to 8 years, are made in one piece, buttoned down the front and have with fancy stripes around the chest and skirt, beginning in price at \$3.00. Life Guard Suits are all sizes from 22 to 52, begin in price at \$3.50. Two-piece Life Guard Suits have white shirts, navy trunks and white belts.

Bathing Suits for Men, one-piece suits of pure worsted in both bright and dark shades, in all sizes from 32 to 52, begin in price at \$3.50. Two-piece Life Guard Suits have white shirts, navy trunks and white belts.

Bathing Suits for Women. These are too numerous to describe in this small space. There are jersey suits, starting in price at \$3.50. Then there are suits of satins, taffetas, voilette, gingham and other desirable fabrics. The stock at Robinson's is larger and prettier this season than ever.

## Silks at Low Prices To Attract Attention

L A JERZ is a very practical tub silk as it may be laundered many times without losing its original beauty. Besides the all-white striped patterns, there are two-toned stripes on grounds of white. This is 22 inches in width and has been reduced for Monday to 95c a yard.

Canton Crepe, the ever popular silk fabric for capes, frocks, skirts and other garments of the feminine wardrobe, in plain shades of tan, chocolate, castor, taupe, medium gray, marine and navy, is 46 inches wide and may be had under the regular price, for \$2.95 a yard.

THIRD FLOOR

## Kayser Lawnette Underwear

THE Union Suits, Athletic Drawers and bodice-top Vests are made like the Kayser Lawnette Italian Silk Underwear. The same care about quality and finish are there.

Lawnette is a fine mercerized fabric, woven like Italian silk.

The Athletic Drawers have an elastic waist-band and are loose at the knee.

Kayser Lawnette Underwear comes in pink and white, and prices are \$2.00 for Vests; \$2.00 for Drawers; \$3.25 for Union Suits.

FOURTH FLOOR

## A Wool Crepon Fabric, Very Light in Weight

WOOL CREPON, a new fabric as light in weight and as soft as the familiar challis, is an ideal fabric for summer wear. Loosely woven checks, perhaps an inch square, add to the attractiveness of this fabric. The colors are coral, soft gray, American Beauty, marine blue and black.

54 inches in width, it may be had for \$8.00 a yard.

SECOND FLOOR

## Boys' Oxfords, \$6.00

BOY'S Oxfords, of Russia Calf, are well made and exceedingly durable, as are all shoes from Robinson's. They have round toes and rubber heels.

In sizes from 1 to 6, they are priced at \$6.00 a pair.

FOURTH FLOOR

## June White Sale Linens! Linens!

THE thousands of pieces of fine Linens that were marked specially for the June White Sale have practically all been sold now. Only a few pieces are left. Among those that may still be had at these reduced prices are:

Turkish Bath Towels, heavy weight, athletic ribbed, 21x41 inches, each. 35c

Extra heavy Turkish Bath Towels, full bleached, size 22x44 inches, each. 45c

Full bleached cotton Huck Towels, with neat hemmed ends and red or white borders, size 18x36, are priced, at a dozen. \$1.65

SECOND FLOOR

## Muslin Gowns for Girls—For the June White Sale Reduced to \$1.25

MUSLIN Gowns, just what the girl will want for the warm weather, may now be had in the girls' department at Robinson's for a price that is under the regular price. These are trimmed with lace and embroidery.

There are 200 of them in sizes from 12 to 16 years, all reduced to \$1.25 each.

FOURTH FLOOR

## Pongee Underwear at June Sale Prices

PONGEE Underthings are very pretty and at the same time exceedingly practical. They are the right garments for vacation time as they know not the meaning of the words "wear out."

Made of a fine quality of all-silk pongee, these Underthings are perfect in workmanship.

These have been marked especially low for the June White Sale:

Gowns with V necks, short sleeves and straps. \$4.95.

Step-in Drawers and Knickerbockers. \$2.95.

Princess Slips. \$4.95.

Camisoles. \$1.75.

FOURTH FLOOR

## Better Cotton Fabrics for the June White Sale

THERE are still a few days left in which one may take advantage of these low prices, but only a few. The following are only some of the good values:

1000 Yards of Clifton Lisse, a soft, sheer fabric striped or barred or with small printed figures, 35 inches wide, and underpriced at 35c a yard.

400 Yards of White Poplin, 27 inches wide, may be had for 35c a yard.

800 yards of White Flaxon, 38 and 40 inches wide, may be had for 35c and 45c a yard.

500 Yards of Imported White Swiss Organdie, 45 inches wide and priced so low as 65c a yard.

1200 Yards of Printed Organdies, Printed Batistes and Printed Voiles, from 32 to 36 inches wide, may be had for 55c a yard.

SECOND FLOOR

## Apparel for the Younger Girl—Lower Priced

MUCH care has been taken in designing these Clothes for the growing girl. They are all of the season's new fabrics, cut on lines that are both becoming and fashionable.

Frocks, 60 of them, made of imported and tissue ginghams in many desired shades, in sizes from 10 to 16, may be had very much under the regular price, for \$7.75 each.

60 Lightweight Coats made of all-wool Polo cloth in youthful shades of orchid, red, tangerine and Copen, in sizes from 6 to 16 years, have been greatly reduced, \$13.75 and \$19.75 each.

20 Capes of tan polo cloth, in sizes to fit all girls from 6 to 16 years of age, may be had for \$10.75 each.

50 Sports Blouses, particularly suitable to wear with slip-ons, may be had in all white, pongee color, or white with checked gingham collars and cuffs, for \$1.25 each. This is under the regular price.

FOURTH FLOOR

## Beach Parasols, \$4.50

PARASOLS with jointed poles are those that are most convenient to carry along in the automobile. Robinson's are offering 50 of these at a very low price—\$4.50. They come in black and red, khaki combined with blue or green, plain khaki and red and yellow.

For Saturday, 50 Beach Parasols with jointed poles at \$4.50.

FIFTH FLOOR

## Lean-to Auto Tents \$7.50

WHEN Auto Tents are made to Robinson's specifications, they are of high grade materials, the floor space is ample (7x7) and they are constructed to give splendid service in every way.

Robinson's are offering Lean-to Auto Tents, which have securely closing front, ties, ropes, stakes and poles, complete at \$7.50. The total weight is just 22 pounds.

FIFTH FLOOR

## Boys' Clothing at Reduced Prices

98 HAND-TAILORED One-Knicker Suits have been reduced to \$15.00 each. Of the finest fabrics—herringbone, worsteds and mixtures—in shades both light and dark; these Suits are of the highest quality of hand-tailoring. Some have pinch backs, some half belts and others all around belts. In all sizes from 7 to 18, these may be had for \$15.00.

300 Boys' Sport Blouses of madras cloth in light and dark patterns, made with short sleeves and one pocket, in sizes from 6 to 14, have been reduced to \$1.00.

FOURTH FLOOR

## Men's Fine Wool Suits \$37.00

MEN are buying them—and men should and men will buy these Suits for four important reasons.

For these four reasons every man who knows good suits should see these suits.

**The Four Reasons Why**

Reason 1. These Suits are new, completing orders placed earlier.

Reason 2. They are put into the \$37.00 Suit Sale—Robinson's great annual event—during the past few days of which hundreds of fine Suits have been sold.

Reason 3. The Sale—at \$37.00—includes all of the top grade Suits in Robinson's stocks without regard to price—excluding evening clothes and imported Sporting apparel.

Reason 4. Materials in these Suits are imported and domestic wools of fine quality, and tailoring conforms to the famous schedule known as Robinson's Specifications. Sizes are 34 to 44.
